SUMMARY

Product Manager with 2+ years of experience in B2B SaaS and consumer apps, delivering features end-to-end across cross-border e-commerce and navigation verticals. Hands-on background spanning product operations, data management, and cross-functional coordination with engineering, design, and QA teams. Native Chinese speaker with C1 English and international working experience across China, the USA and New Zealand.

EDUCATION

Universitat Jaume I, Spain

09/2025 - 07/2026

Master in English Language for International Trade

International Management, International Marketing, Business Trips and Socialising, Intercultural Communication

Guizhou University, China

09/2015 - 07/2019

Bachelor in Business English

Working Holiday, New Zealand

11/2023 - 01/2025

WORK EXPERIENCE

TruckerPath (North American Trucking Navigation App)

09/2022 - 04/2023

Product Manager

Managed and maintained the app's full POI database across North America, coordinating with an offshore operations team to validate, clean, and execute large-scale backend updates across thousands of records. Defined community feature logic including comment ranking rules, keyword filters, and display parameters, contributing to improved user ratings. Researched and scoped an automated fuel price update system, resulting in expanded coverage and improved data accuracy via API integration. Established a closed-loop feedback system integrating user insights, engagement metrics, and weekly cross-functional reviews. Delivered feature updates from requirements through release in collaboration with engineering and design teams.

DSers (AliExpress Dropshipping SaaS)

Product Manager

11/2021 - 09/2022

Led a competitor product acquisition project, authoring 100+ PRDs to analyze, redesign, and integrate rival app features into DSers' ecosystem. Coordinated engineering, design, and QA teams through delivery, managing stakeholder alignment and cross-functional review cycles.

Marketing & Content Specialist

03/2021 - 11/2021

Designed and launched the Help Center based on competitor benchmarking, reaching 30k monthly visits and 10k+ MAU. Wrote 300+ blog posts covering platform tutorials and industry content for cross-border e-commerce audiences.
