SUMMARY

Project coordinator with 2+ years of experience managing cross-functional deliverables in tech environments, including a full competitor product integration project spanning requirement definition, stakeholder alignment, and release. Coordinating between engineering, design, QA, and offshore operations teams across time zones. Native Chinese speaker with C1 English and international working experience across China, the USA and NZ.

EDUCATION

Universitat Jaume I, Spain

09/2025 - 07/2026

Master in English Language for International Trade

International Management, Business Trips and Socialising, Intercultural Communication, Business Presentations

Guizhou University, China

09/2015 - 07/2019

Bachelor in Business English

Working Holiday, New Zealand

11/2023 - 01/2025

WORK EXPERIENCE

TruckerPath (North American Trucking Navigation App)

09/2022 - 04/2023

Product & Operations Manager

Coordinated cross-functional delivery of feature updates from requirements through release, working with engineering, design, and QA teams. Managed an offshore operations team to execute large-scale POI database updates, establishing workflows for data validation, labeling, and backend uploads. Supervised an intern on a systematic highway data collection project. Defined moderation rules and display logic for in-app community features, aligning stakeholder requirements with technical implementation.

DSers (AliExpress Dropshipping SaaS)

Product Manager

11/2021 - 09/2022

Managed end-to-end delivery of a competitor product acquisition project, coordinating engineering, design, QA, and business stakeholders. Authored 100+ PRDs and led cross-functional review cycles to ensure alignment between business requirements and technical delivery. Oversaw feature analysis, requirement definition, and system integration milestones.

Marketing & Content Specialist

03/2021 - 11/2021

Led the planning and launch of the Help Center from competitor benchmarking through go-live, reaching 30k monthly visits and 10k+ MAU. Wrote 300+ blog posts covering platform tutorials and industry content.
